Brings together an extensive and varied collection of ninety-one classical and contemporary readings on ethical theory and practice. Integrating literature with philosophy in an innovative way, this anthology uses literary works to enliven and make concrete the ethical theory or applied issues addressed

Now more concise, the fourth edition of Louis P. Pojman and Lewis Vaughn's The Moral Life: An Introductory Reader in Ethics and Literature brings together an extensive and varied collection of eighty-four classical and contemporary readings on ethical theory and practice. Integrating literature with philosophy in an innovative way, the book uses literary works to enliven and make concrete the ethical theory or applied issues addressed in each chapter. Literary works by Camus, Hawthorne, Huxley, Ibsen, Le Guin, Melville, Orwell, Styron, Tolstoy, and many others lead students into such philosophical concepts and issues as relativism; utilitarianism; virtue ethics; the meaning of life; freedom and autonomy; sex, love, and marriage; animal rights; and terrorism. Once introduced, these topics are developed further through readings by philosophers including Plato, Aristotle, Kant, Singer, and Sartre. New to this edition are readings by James Rachels, Alasdair MacIntyre, Samuel Butler, Bertrand Russell, James Q. Wilson, John Corvino, and Stephen Nathanson. This unique anthology emphasizes the personal dimension of ethics, which is often ignored or minimized in ethics texts. It also incorporates chapter introductions, study questions, suggestions for further reading, biographical sketches of the writers, and an appendix about how to write a philosophy paper.

Featuring new selections chosen by coeditor Lewis Vaughn, the third edition of Louis P. Pojman's The Moral Life: An Introductory Reader in Ethics and Literature brings together an extensive and varied collection of ninety-one classical and contemporary readings on ethical theory and practice. Integrating literature with philosophy in an innovative way, the book uses literary works to enliven and make

concrete the ethical theory or applied issues addressed in each chapter. Literary works by Camus, Hawthorne, Hugo, Huxley, Ibsen, Le Guin, Melville, Orwell, Styron, Tolstoy, and many others lead students into such philosophical concepts and issues as relativism; utilitarianism; virtue ethics; the meaning of life; freedom and autonomy; sex, love, and marriage; animal rights; and terrorism. Once introduced, these topics are developed further through readings by philosophers including Plato, Aristotle, Kant, Nozick, Singer, and Sartre. This unique anthology emphasizes the personal dimension of ethics, which is often ignored or minimized in ethics texts. It also incorporates chapter introductions, study questions, suggestions for further reading, and biographical sketches of the writers. The third edition brings the collection up-to-date, adding selections by Jane English, William Frankena, Don Marquis, John Stuart Mill, Mary Midgley, Thomas Nagel, Judith Jarvis Thomson, and J.O. Urmson. It also features a new chapter on euthanasia with essays by Dan W. Brock, J. Gay-Williams, and James Rachels. Ideal for introductory ethics courses, *The Moral Life*, Third Edition, also provides an engaging gateway into personal and social ethics for general readers.

Unsparing and important. . . . An informative, clearheaded and sobering book. Jonathan Yardley, *Washington Post* (1999 Critic's Choice) Inner-city black America is often stereotyped as a place of random violence, but in fact, violence in the inner city is regulated through an informal but well-known code of the street. This unwritten set of rules—based largely on an individual's ability to command respect—is a powerful and pervasive form of etiquette, governing the way in which people learn to negotiate public spaces. Elijah Anderson's incisive book delineates the code and examines it as a response to the lack of jobs that pay a living wage, to the stigma of race, to rampant drug use, to alienation and lack of hope.

Happiness and the Christian Moral Life introduces students to Christian ethics through the lens of happiness. The book suggests that the heart of ethics is not rules and obligations but our deep desire for happiness and fulfillment. We achieve that happiness when we become people who love the good and seek it in everything we do. The third edition of this reader-friendly text has been revised and updated throughout. It introduces Christian ethics with sensitivity towards readers who may not be Christian themselves. After an overview of basic concepts and key thinkers such as Augustine and Thomas Aquinas, subsequent chapters explore the importance of narrative in Christian ethics, the place of friendship and community in Christian moral life, the role of virtues in our quest for fulfillment, a Christian understanding of the person, a Christian theology of freedom, and false steps on the path to happiness. Final chapters discuss the role of conscience and prudence, love, and justice. The third edition has been re-structured to better meet teaching needs by moving the discussion of narrative earlier in the book. This edition features fresh, global examples; revised introductions to key thinkers; discussions of tough, contemporary topics such as hook-up culture; careful consideration of the words of Pope Francis on themes ranging from consumerism and freedom to love and the environment; and more.

This collection of classic and contemporary readings in ethics presents sharp, competing views on a wide range of fundamentally important topics: moral relativism and objectivism, ethical egoism, value theory, utilitarianism, deontological ethics, virtue ethics, ethics and religion, and applied ethics. The Fourth Edition dramatically increases the volume's utility by expanding and updating the selections and introductions while retaining the structure that has made previous editions so successful.

The Christian Moral Life is a handbook for moral theology that uses the theme of a journey to explain its key ethical concepts

Moral Philosophy: A Contemporary Introduction is a compact yet comprehensive book offering an explication and critique of the major theories that have shaped philosophical ethics. Engaging with both historical and contemporary figures, this book explores the scope, limits, and requirements of morality. DeNicola traces our various attempts to ground morality: in nature, in religion, in culture, in social contracts, and in aspects of the human person such as reason, emotions, caring, and intuition.

This college edition of *Our Moral Life in Christ* by Rev. Peter Armenio focuses on the Person and teachings of Christ and examines the moral life from that perspective. Christian morality is not only for "knowing," but also for "living." This is a practical manner in which the spirit of Christ is made manifest in the world, thus contributing to the improvement of society. Based on the Ten Commandments and the Beatitudes, *Our Moral Life in Christ* presents the teachings of the Magisterium on moral issues in modern society. Inspired by recent papal documents, especially the encyclical *The Splendor of Truth*, and the Catechism of the Catholic Church, this book provides the moral formation that will help the reader to become more Christlike in service of love and in the journey toward personal perfection as well as providing the foundation to pursue advanced theological studies.
